MARSHALL DAVIS MEDICAL LOGISTICS, LLC

FEDERAL MISSION INTEGRATOR

Defense Technology | Systems Integration | Mission Logistics | Federal Acquisition

UEI	CAGE	SAM.GOV	DSIP	SBIR.GOV
F37BDPQGSKN6	23A74	ACTIVE	REGISTERED	REGISTERED

EXECUTIVE POSITIONING

Digital mission layer + operational mission layer

MDML is a U.S. small business building a federal mission-integration model that connects AI-enabled decision support, custom software, cloud and systems integration, applied R&D, and mission-critical logistics around measurable government and defense outcomes.

WHY MDML

ACQUISITION-AWARE
DSIP / SBIR-STTR / subcontract pathways

PARTNER-FORWARD
Integrates specialized technical and operational partners

OPERATIONALLY GROUNDED
Technology tied to readiness, visibility and execution

FEDERAL PROFILE

NAICS - current record + technology expansion

CURRENT PUBLIC PRIMARY NAICS

488510 Freight Transportation Arrangement

TECHNOLOGY EXPANSION FOCUS

541512	Computer Systems Design
541511	Custom Computer Programming
541715	Applied R&D / Defense Technology

Label as registered only after reflected in the SAM.gov entity record.

CORE CAPABILITY STACK

Mission integration across six lanes

AI & DECISION SUPPORT
Operational analysis, prioritization, workflow automation, mission awareness and human-in-the-loop decision tools.

SOFTWARE & SYSTEMS
Custom applications, APIs, computer systems design, hardware/software integration and digital modernization.

CLOUD & DATA
Cloud-enabled architecture, scalable computing environments, data integration and secure digital workflows.

APPLIED R&D & PROTOTYPING
Mission-defined feasibility, experimentation, prototype development, operational testing and transition planning.

MISSION LOGISTICS & READINESS
Aerospace/AOG, medical, contingency, deployment, staging, multimodal coordination and time-critical recovery.

FEDERAL TEAMING & TRANSITION
Prime/subcontract workshare, DSIP/SBIR alignment, partner integration, acquisition planning and prototype transition.

MDML MISSION ADVANTAGE

INTEGRATE. COORDINATE. EXECUTE.

One accountable integration layer connecting technology, systems, qualified partners, logistics, readiness and federal acquisition around the mission.
